Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant is requested to provide the information as indicated on the form PTO-1449 filed on January 16, 2004.

Rejection Under 35 U.S.C. 112, Second Paragraph

Claim 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 40 is indefinite for reciting the limitation " the at least ... of the mask" in lines 1-2. How is the at least one mark region that is an elongated mask region, since the mark region and the mask region are different regions?

Rejection Under 35 U.S.C. 102(a)

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 3, 7-9, 27 and 38-42 are rejected under 35 U.S.C. 102(a) as being anticipated by Yahiro et al. (6,204,509). (See the reasons as indicated in the previous office action dated December 16, 2003).

Claims 4-6 and 28-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. (See the reasons for indicating allowable subject matter as indicated in the previous office action dated December 16, 2003).

Applicant's arguments filed on April 16, 2004 have been fully considered but they are not persuasive.

Applicant argued that scanning one single alignment mark is not sufficient for determining the distortion of the mask.

This argument is not persuasive. Since, the independent claims 1 and 39 recite detecting the charged particles incident on **at least one mark region provided on the mask**. Further, Yahiro et al. also disclose a plurality of marks 53 or 153 provided on a plurality of straightly parallel spaced extending supporting elongated struts 151 which are parallel to elongated mask regions (see fig. 1f).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
